  GREEN VALLEY PUBLIC SCHOOL (2019)
- 10TH - CGPA 8.2
  GREEN VALLEY PUBLIC SCHOOL (2017)

PROJECTS MADE

- **OMNIFY APP**
  It is a Reminder Notification application for desktop, which keeps track of all the things user has to do throughout the day and send it in the form of a notification.
- **FLASCHE HUB**
  It`s a bottle hub ecommerce website which has a variety of bottle brands to suit every customer needs, it also has many filters to find the perfect bottle as per the user`s need`s.
- **NEWS APP**
  It is an Android based application which provides latest news according to the user`s interests. The application also have a variety of news categories like Science, Entertainment, Sports, Stock market, Technologies etc.
- **ADVERTISEMENT BOT**
  It is a python based application which use Selenium module to create a Web Bot. In this program you can provide anything like an image or a poster you want to advertise and the bot will automatically send that image to all the related people.
